Land A Fish Outdoors Charter Services

Introduction:

I am a 36 year old U.S. Coast Guard licensed captain that works out of Lake St. Clair, Detroit and St. Clair Rivers, as a Walleye fishing guide. My grandfather got me started fishing when I was nine and I have been hooked ever since. Over the years I have fished many different areas throughout Michigan for a variety of fish. I made the decision to become a charter captain because I want to be able to share my years of fishing knowledge with people who are new to the fishing world as well as, people who have been fishing for years and are looking to expand their knowledge. I enjoy trying new techniques and products in order to find out the best ways to catch different varieties of fish. When I find a quality product that I like I make sure that I wear or use it whenever possible not only to promote that company but to show my clients how valuable the products are for catching fish. Chartering is a great opportunity to advertise products, giving clients the chance to test the products which can lead to future purchases if they have success with the products.

Education:

Great Lakes Charter Training

Algonac, MI 2018
Captains License Class

Macomb Community College

Clinton Township, MI 2002-2004
Associate of Applied Science in Law Enforcement

Chippewa Valley High School

Clinton Township, MI 1997-2001

Work History:

I am on the water as often as I can be working as a licensed fishing guide. I have over 15 years experience in the tooling industry doing CAD design and CNC programming. I currently work for Omega Plastics, Inc. in Clinton Township, Michigan as a tooling engineer. I work with the heads of other departments, customers and suppliers on a daily basis. I spent many years selling and installing car audio. I also work with Rose Marine Services in Algonac, Michigan as a sales representative during various boat shows throughout the year. I work with customers in choosing the right boat for their needs as well as, providing them with fishing related information.

Land A Fish Outdoors Charter Services

Algonac, MI Established in 2019 to Present
Owner/Captain

ICM Enterprise, LLC

Fraser, MI 2012-2019

Odyssey Tool

Clinton Township, MI 2009-2012

Neo Tech Industries Inc.

Macomb, MI 2006-2009

Millennium Tool and Technologies, LLC

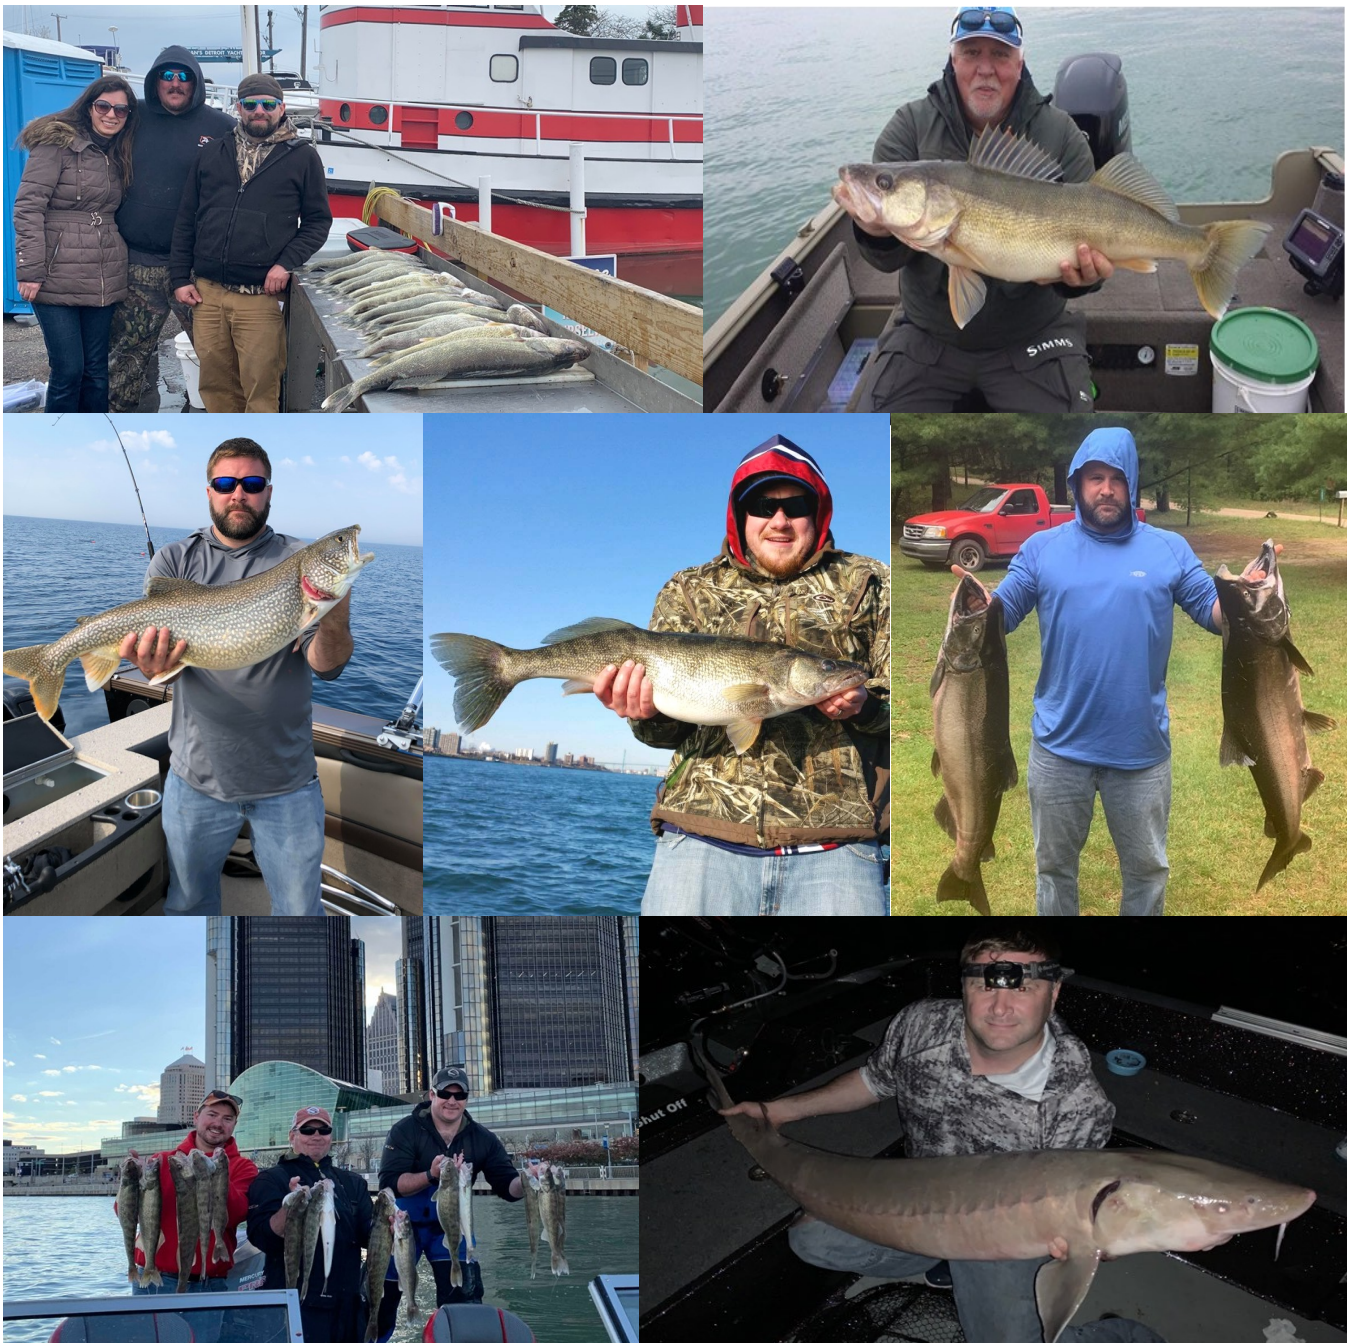

Rochester Hills, MI 2004-2006

Accomplishments and Goals:

- I have received several master angler awards over the past several years for a variety of fish species.
 - I have fished in several MWT events on the Detroit River.
 - I plan to continue to expand my charter services in the upcoming years bringing my passion and knowledge of fishing to others.
 - I would like to start a U-Tube channel in the near future with a goal of teaching people about different fishing techniques and products.
-
